

Now even more practical: Passier Martingale and Breastplates

The Passier Martingale and the Passier Breastplates are now even more convenient! For as of now they are outfitted with a new, small but fine detail that will convince every rider!

At Passier we are constantly working on making our quality products even more horse-friendly and convenient. Every detail counts. That's why we have now reworked the rings at the front of the Martingale. They are now available in a new design with integrated clip closure on the inside! This means that you no longer have to unbuckle the reins in order to thread them through the rings! Instead you simply open the clip and the Martingale attachment is in place! The clips open on the inside, which prevents the reins from slipping out of the rings.

As of now the Passier Martingale and the Passier Breastplates Auriga, Phoenix, PASSIERBLU Easy, the Ingrid Klimke and also the Marcus Ehning Breastplate are now outfitted with the new clip rings. In addition the wonderfully soft quality leather and the excellent craftsmanship will continue to convince riders everywhere.

The Martingale and the Breastplates are available from Passier stockists. You can easily find Passier dealerships in your area with the Store-Locator at passier.com.
